

SHOPPING CART DISINFECTION SYSTEM TE-DZN-01

- The TE design team has diligently worked to find solutions for the fight against the Covid 19 Pandemic.
- Grocery stores and department stores are essential to meet the consumers' needs but can be a hot bed for virus transmission if proper disinfection procedures are not followed.
- Shopping carts can be the single most intense point of transmission. Proper disinfection of shopping carts is important in preventing contamination.

- Fully automatic, contactless disinfection.
- Non-contact disinfection with sensor dosing system.
- AISI 304 quality stainless steel body, chassis and installation.
- Excellent pulverization.
- 38 lt Disinfectant tank.
- Minimum consumption, maximum efficiency.
- Modular design, easy installation.
- Conformity certificate and test report according to CE 2006/42 / AT Machinery Safety Regulation.
